## **NEW BACCALAUREATE DEGREE PRELIMINARY REVIEW AND PROPOSAL OUTLINE**

In order to evaluate the feasibility of any new baccalaureate degree program, the following information must be reviewed by the Office of the Provost *before* beginning the development of a full proposal. The preliminary step will present the case for development of a full proposal and will be used to ensure appropriate administrative support at both the institutional and state level. The Office of the Provost will review the information with consultation from the Dean of the College, and others as appropriate, to comment on the fiscal and programmatic feasibility of the proposed program. Only a brief treatment is expected at this stage. Six weeks should be allowed for this preliminary review and approval.

Following the Provost's review, faculty must submit a Form C proposing a baccalaureate degree program and a fully developed degree program proposal that addresses the requirements set by the New Mexico Higher Education Department (NMHED) as outlined below. At that point the Office of the Provost will provide the NMHED with a "notification of intent" to develop the proposal. If the proposal is finally approved by all the required signatory groups, including the UNM Board of Regents, the Office of the Provost will submit the proposal in its entirety to the NMHED for their approval and implementation.
