

Due to sheer volume, it is unlikely that all CR/NC grade mode change requests will be processed by the end of the business day on May 21 when grades will be rolled to academic history (and subsequently displayed on student transcripts.) This is despite the heroic efforts of faculty and of the Records and Registration staff and additional processors from other areas that were brought on specifically to manage this process.

Instructor approved Grade Mode Change requests received by email before 5 p.m. on May 21, as per the Spring 2020 COVID-19 Senate Resolution, will be honored, but it may take additional time beyond May 21 for the change to reflect in the student record.

The Registrar's Office requests the patience of our community as we work on behalf of faculty and students. Please refrain from sending follow-up inquiries until June 1, by which time we will have processed most requests. Follow-up inquiries between now and June 1 create additional email traffic that slows our progress.

Approved Grade Mode and Grade Changes submitted after 5 p.m. on May 21 require the use of the Enrollment Authorization After the Term Form <http://registrar.unm.edu/forms/pdf-warning.html?q=/forms/EnrlAuth-AfterTerm.pdf>, and normal fees will be assessed. Normal fee for a Grade Mode Change is \$10 per transaction.
